2021-2022 Extra Curriculum Participation Policy

Participation in any JP2 Extra Curriculum activities affords students the opportunity to develop sportsmanship, commitment, confidence, and time management. It is necessary for students to learn how to balance their responsibilities; therefore, we expect St. John Paul II students to remain in good academic standing while participating in any school activity. Any student who is missing more than 3 assignments in any class will not be allowed to participate in any extra curriculum activity. Furthermore, any student who is in jeopardy of receiving a final grade lower than a C- in any class may be suspended from participating per the discretion of the principal.

I have read the 2021-2022 Extra Curriculum Participation Policy and agree to follow the school policies and procedures as stated.
